EDUCATION

Chandigarh University *Bachelor of Engineering — Computer Science* Aug 2024 – Aug 2028 (expected) & Engineering

EXPERIENCE

Automation Engineer — Little Petals School, Patna Mar 2025 – Present
Contract · On-site

- Deployed an **AI receptionist** using n8n + LLM chain to handle parent inquiries, admission queries and scheduling 24/7 with zero human intervention.
- Built automation suite for notice broadcasting, WhatsApp alerts, fee reminders and event management — saving **30+ hours/week** of staff effort.
- Engineered an admissions follow-up pipeline (inquiry → nurture → confirmation) contributing to a **20% increase in student admissions** within 6 months.

Freelance Automation Engineer Jan 2025 – Present
Independent · Remote

- Delivered custom n8n workflows integrating Claude API, Groq AI and LLM chains for content creators and small businesses to automate publishing, lead gen and outreach.

PROJECTS

Timelapse → Instagram + Twitter Auto Publisher n8n · Groq AI · LLM Chain · Instagram Live
Graph API · Buffer

- GDrive file upload triggers n8n → Groq AI generates captions via LLM chain → auto-publishes as Instagram Reel and cross-posts to Twitter. Saves **15+ hours/week**.

GDrive → GitHub → Vercel → LinkedIn Auto Post n8n · Groq AI · GitHub API · Vercel API · Live
LinkedIn API

- Full DevOps pipeline: file save → GitHub commit → Vercel deploy → AI-generated LinkedIn post — all automatically, zero context-switching for the developer.

GitHub → LinkedIn Auto Poster (Webhook) n8n · Claude API · GitHub Actions · LinkedIn API Live

- GitHub push → webhook fires → Claude AI reads commit context → writes & publishes professional LinkedIn post automatically. Passive developer branding on every commit.

TECHNICAL SKILLS

Automation: n8n, Make.com, Zapier, Webhooks, REST APIs, LLM Chains
AI / LLM: Claude API, Groq AI, OpenAI GPT, LangChain, Prompt Engineering
Chrome Extensions: Manifest V3, Content Scripts, Service Workers, Chrome APIs
Dev / Tools: Node.js, React, JavaScript, TypeScript, Python, GitHub Actions, Vercel, Git
Integrations: Google Drive, LinkedIn API, Instagram Graph, Buffer, WhatsApp API, Gmail

ACHIEVEMENTS

- **20% Admissions Growth:** Sole automation engineer whose AI + n8n pipeline measurably grew admissions at Little Petals School within 6 months.
- **3 Live Production Workflows:** All projects running in real production environments solving daily problems — not demos or side projects.
- **Building in Public:** Sharing automation builds on LinkedIn and GitHub; workflows referenced by peers in the n8n community.
